

MYPROPERTYCOMPARISON

43 New Launch Property Projects

Prices, PSF, developers and tenure for new launches
across Kuala Lumpur, Selangor, Johor and Sabah — 2026 Edition

How to Read This Guide

PSF

Price per square foot — the price divided by the unit size. Useful for comparing value across different unit sizes.

Freehold vs Leasehold

Freehold means you own the land indefinitely. Leasehold means ownership runs for a fixed lease term (commonly 99 years) from the state.

Completion Year

When the project is expected to be handed over. "Completed" means the project is ready to move in now.

Highlight tag

A standout feature of the project, e.g. best transit access, pet-friendly, or freehold status.

"From" pricing

Prices and PSF shown are the entry-level starting price for the smallest/cheapest unit type — larger units cost more.
